## The Mechanic Was Surprised!

Tuesday , April 7

When a policeman near Chicago came back from a holiday, he noticed that

休暇を終えて仕事に戻った

気が付いた

one of the headlights on his police car wasn't working. He took the car to

2年 Unit ( )-( )

a mechanic. The mechanic was surprised when he looked inside. He found

修理工

驚いた ( )形

a nest! It was made of leaves, and there were four tiny baby squirrels ("risu")

巣

～で作られていた 単数形は?

inside. Their mother had made a nest for them in a warm place, near the

過去完了形 (高校)

engine. The policeman didn't want to kill the babies, so he put them in a

2年 Unit ( )-( )

box and left the box outside. The squirrel mother came back in the evening.

She took her babies one by one to a new nest inside a tree.

一つずつ

### Q Where did the baby squirrels go?

- 1 Read silently for a minute.
- 2 Count how many seconds it takes to read.
- 3 Read the question and underline the answer.
- 4 If you answered correctly, use the formula to calculate your WPM.  
If you answered incorrectly, just breathe.

| 語数 | WPM |
